PERFORMANCE CERTIFICATE

To Whom it May Concern

This is to certify that E. & K. TASSIS Co. having main offices and production plant in Athens (Greece), 7 Dimaraki Str., 118 55 Votanikos, has supplied overhead transmission line fittings specially designed for high voltage transmission lines 150 kV and 400 kV, according to our company's Technical Specifications TR-4, TR-5 and the relevant drawings.

We confirm the good quality of the fittings supplied as indicated in the attached list of contracts and orders for the time period from 1998 to 2012.

The fittings supplied by E. & K. TASSIS Co. were of high quality and were correctly supplied in terms of packaging, marking and delivery terms.

Furthermore, their performance on the transmission system has been with no problems up to this point in time.
